Operation Certification

江苏神马电力股份有限公司为新疆乌鲁木齐 110kV（单回）米城线（技改）提供 11 基 110kV 横担塔产品，工程供货清单如下表所示：

SHEMAR provided eleven composite cross-arm on steel poles for the 110kV S/C transmission line project in Mi Cheng, Xinjiang province. The detail of the composite cross-arm towers is as below:

产品类型 Specification	电压等级 Voltage	数量/基 Quantity
复合横担 Composite cross arm-tower	110kV	11
合计 Total		11

江苏神马电力股份有限公司复合横担塔缩小了输电走廊，降低了塔高，并有效防止输电线路风偏跳闸事故，对于提升输电线

路的可靠性和经济性具有重要意义。

SHEMAR's composite cross-arm towers make the corridor of the transmission line narrower, and are much lower. SHEMAR's composite cross-arm towers can prevent windage yaw trip and make great contribution to improve OHL's reliability and economical efficiency.

2015 年工程成功投入试运行。至今为止，江苏神马电力股份有限公司所提供的复合横担塔产品运行状态良好。

The project was put into operation in 2015.SHEMAR's composite cross-arm towers are working in good situation.

特此证明

Hereby certify

运行情况良好。
